

## **Information letter**

### **V International Conference «Solar-Terrestrial Relations and Physics of Earthquakes Precursors» 2-7 August, 2010**

Institute of Cosmophysical Research and Radio Wave Propagation Far Eastern Branch of Russian Academy of Sciences will hold Fifth International Conference «Solar-Terrestrial Relations and Physics of Earthquakes Precursors» on August 2-7, 2010 in v. Paratunka Kamchatskiy kray.

The following sections will be organized during the conference:

1. Solar activity influence on geospheric processes.
2. Geophysical fields and its interaction.
3. Dynamical processes in the atmosphere.
4. Radio physics and acoustics of energy active zones.
5. Physics of the earthquakes precursors.

If you wish to take part in the Conference, please online registration and abstract submission are opened on <http://www.ikir.ru:8480/conference2010>

**Abstract submission deadline is February 1, 2010.**

Second information letter will be issued at the end of February 2010.
